

App. No. 10/626935  
Office Action Dated July 6, 2004  
Amd. Dated November 4, 2004

**Amendments to the Claims:**

This listing of claims will replace all prior versions and listing of claims in the application.

Claim 1 is amended.

**Listing of Claims:**

1. (Currently Amended) A structure of a door opening/closing apparatus, comprising:  
  
an arm member coupled to a door of a vehicle which closes a door opening of a body panel; and  
  
a driving unit provided inside a vehicle body of the vehicle to move the arm member,  
  
wherein the arm member is arranged to be protrudable from inside of the vehicle body, through a space which the door occupies when closed, pushing the door open and pulling the door shut; and  
  
wherein a seal member is provided along an inner peripheral edge of ~~[[a]]~~ the body panel defining ~~[[a]]~~ the door opening of the vehicle body, and a through opening in the seal member through which the arm member ~~is protrudable~~ protrudes is formed in the seal member.
2. (Original) A structure of a door opening/closing apparatus according to claim 1, wherein the seal member includes a first seal member and a second seal member, the through opening being formed in the first seal member; and the second seal member being

App. No. 10/626935  
Office Action Dated July 6, 2004  
Amd. Dated November 4, 2004

formed separately from the first seal member and provided contiguously to the first seal member.

3. (Original) A structure of a door opening/closing apparatus according to claim 2, wherein the first seal member is formed by molding.
4. (Original) A structure of a door opening/closing apparatus according to claim 2, wherein the first seal member is made of material harder than that which the second seal material is made of.
